

Acorn Christian Healing Foundation was founded in 1983 to support and promote the vision of a Church and Nation renewed in the service of Christ the Healer. There are three strands to the vision: listening, healing and reconciliation. Acorn is one of the most experienced providers of listening skills training in the UK.

Learning to listen effectively - to ourselves, to God and to others - enables everyone to clearly understand and authentically live their own life story.

Listening improves the quality of relationships, learning to listen to ourselves helps us to grow in wholeness and learning to listen to God helps us to deepen our spirituality.

This training event led by Acorn trainers will explore the process by which we can listen effectively to bring healing and wholeness to individuals, churches and communities.

During the day you will have opportunity to put into practice some of the skills that you will learn.

We do hope that you will find this workshop both helpful and rewarding.

“Listening is a ministry that’s within: one that everyone can do. It transforms chance conversations into something different.”
